QF292C	EL BOARD APPRAISAL – STAFF FEEDBACK

As part of the Board appraisal process, you are invited to share your views and suggestions in response to the following questions. Your unique involvement and relationship with the Board affords you opportunities to observe and interact with Board Members in ways few others do.

This is entirely optional; you are not required to provide feedback and how much or little you provide is entirely up to you. You will not be specifically identified as the source of any information you provide. All responses will be collated and summarised into 'key themes', not direct quotes or statements attributed to any one person.

1. **How do you rate the Board's commitment to the organisation and its core values?**

Not committed **Fairly committed** **Very committed**

Comments:

2. **What practical and other support do individual Board Members and the Board as a whole need to fulfil their roles and functions?**

3. **What areas have you seen improvement and development in over the past year in the Board's overall operations and in individual Board Members?**

4. **What areas have not seen improvement and development in over the past year and highlight those areas that you think will always be difficult.**
